## OVERVIEW

Welcome to The Mandatory Training Group's online Safeguarding Children – Level 3 training course for front-line healthcare and social care providers. All our online training courses, programmes and qualifications are accredited by the CPD Certification Service (CPDUK).

All organisations that work with or come into contact with children should have adequate safeguarding policies and procedures to ensure that every child, regardless of their age, disability, gender reassignment, race, religion or belief, sex, or sexual orientation, has a right to equal protection from harm.

Setting up and following good safeguarding policies and procedures means children are safe from adults and other children who might pose a risk. This includes voluntary and community organisations, faith groups, private sector providers, as well as schools, hospitals and sports clubs.

All professionals working with children and young people across all sectors should complete appropriate safeguarding children training.

Safeguarding is protecting vulnerable adults or children from maltreatment, abuse or neglect and/or preventing harm to children's health or development. It means making sure children and young people are supported to get proper access to health care and stay well, ensuring children grow up with the provision of safe and effective care, taking action to enable all children and young people to have the best outcomes. It is wrong if professionals do not treat vulnerable people with the same respect as other patients.
