OVERVIEW

Welcome to The Mandatory Training Group's online Safeguarding Children – Level 2 training course for front-line healthcare and social care providers.

All organisations that work with or come into contact with children should have adequate safeguarding policies and procedures to ensure that every child, regardless of their age, disability, gender reassignment, race, religion or belief, sex, or sexual orientation, has a right to equal protection from harm.

Setting up and following good safeguarding policies and procedures means children are safe from adults and other children who might pose a risk. This includes voluntary and community organisations, faith groups, private sector providers, as well as schools, hospitals and sports clubs.

Why is this online Safeguarding Children - Level 2 training course essential?

Safeguarding children and young people from harm and providing an environment in which children can flourish is a critical societal value. Children and young people have a right to be “protected from all forms of violence, abuse, neglect and bad treatment by their parents or anyone else who looks after them” (United Nations 1989). Organisations are required to co-operate with other agencies to protect individual children and young people from harm. The importance of this has been powerfully highlighted as part of recent inquiries exploring child and young people safeguarding issues.

Supportive and trustful relationships between children, their families and healthcare staff will be a critical factor in enabling effective safeguarding management. Dependent upon roles, healthcare workers can be in an essential position in helping to recognise child maltreatment. Healthcare staff need to be alert to the signs and symptoms of maltreatment or neglect. They will have a vital role in ensuring useful recording, #communication and sharing of information, to help improve identification and provide appropriate support is put in place for children and young people in need or at risk of harm.

Healthcare staff will need to exercise professional judgement focused on the safety and welfare of children and young people, and know-how to make a referral when appropriate. Accordingly, healthcare organisations need to ensure that all staff that might be in contact with children or involved with their care have a clear awareness and understanding of safeguarding issues.

Healthcare choice for **everyone** **Statutory and Mandatory Training for Healthcare Providers**

“All our senior clinicians were delighted with the delivery of the mandatory training courses. They found the course leaders to be very flexible with allocating more time to certain areas at request. The course contents that LearnPac had designed were tailored to our workforce, which helped them improve their understanding of the subjects. The application of legislative concepts to practice was excellent”.

Sophie Hartley-Jones, OneHealth Group, Sheffield, UK

Online Training and Development for the Public Sector

“We work with various public sector organisations. Statutory and mandatory training is essential for all our placements. We used LearnPac for the blended learning environment they provide for our staff. The online statutory and mandatory training courses adequately meet our regulatory requirements. LearnPac’s learning management system enabled us to manage our learners and quickly sort out compliance for our workers. The flexibility of pricing and meeting our needs with the mandatory training was beneficial.”

David Sanchez, Eden Brown Synergy, London, UK

Blended Train the Trainer Courses for Healthcare Providers

“We were looking to provide resuscitation and first aid training for clinical and non-clinical staff internally. The Mandatory Training Group stood out because they provide comprehensive blended learning solutions. Our internal trainers and facilitators were able to complete the theory training and assessments in advance. The practical sessions were packed with meaningful activities throughout the day. The lead trainers also helped us to complete training needs assessments”.
