## OVERVIEW

Welcome to The Mandatory Training Group's online Critical Thinking training course. All our online training courses, programmes and qualifications are accredited by the CPD Certification Service (CPDUK).

Critical thinking is the intellectually disciplined process of actively and skilfully conceptualising, applying, analysing, synthesising, and/or evaluating information gathered from, or generated by, observation, experience, reflection, reasoning, or communication, as a guide to belief and action. In its exemplary form, critical thinking is based on universal intellectual values that transcend subject matter divisions: clarity, accuracy, precision, consistency, relevance, sound evidence, good reasons, depth, breadth, and fairness.

## Why is this online Critical Thinking training course essential?

Critical thinking is the analysis of facts to form a judgment. The subject is complex, and several different definitions exist, which generally include the rational, sceptical, unbiased analysis, or evaluation of factual evidence.

Critical thinking is self-directed, self-disciplined, self-monitored, and self-corrective reflection. It presupposes assent to rigorous standards of excellence and mindful command of their use. It entails effective communication and problem-solving abilities as well as a commitment to overcome native egocentrism and sociocentrism.
