OVERVIEW

Welcome to The Mandatory Training Group's online Servant Leadership training course. All our online training courses, programmes and qualifications are accredited by the CPD Certification Service (CPDUK).

Servant leadership can seem like a contradicting term, but it is becoming a very popular tool in many businesses. Servant leadership is a philosophy that involves focusing on others, on their success, and in turn, to build better relationships that benefit both manager and employee. Servant leadership shows that managers can be great leaders while boosting their employee's confidence and further their success at the same time.

With our online Servant Leadership training course, participants will focus on the growth and development of their employees and ensuring their success. In doing so, the leader succeeds when the employees do. With a business team, servant leadership can not only help employees achieve and grow, but it can also benefit their leaders and the company as a whole.

Why is this online Servant Leadership training course essential?

Leadership has been defined in many ways by many different people. At the core of its meaning, servant leadership is somewhat of an oxymoron. A person that humbles themselves to become a servant of today is positioning themselves to become a leader of tomorrow.

Servant leadership is the idea that you should be willing to support the greater good even if it means temporarily sacrificing yourself or your thoughts. It embraces the concept that meeting the needs of others is what allows communities and businesses to reach their full potential. It involves going above and beyond to collaborate and achieve that which doesn't have a direct benefit to yourself.
