CompTIA Network+ N10-007

Course Includes:

EXPERT INSTRUCTOR-LED TRAINING

Finest instructors in the IT industry with a minimum of 15 years, real-world experience and are subject matter experts in their fields

VISUAL DEMONSTRATIONS & MULTIMEDIA PRESENTATIONS

Instructor-led demonstrations and visual presentations that allow students to develop their skills based on real world scenarios explained by the instructor.

QUIZZES & EXAM SIMULATORS

Custom practice exams prepare you more effectively than the traditional exam preps on the market. Practice quizzes after each module ensures confidence on the topic before proceeding.

SOCIAL LEARNING & NETWORKING

World class Learning Management System (LMS) which allows you to interact and collaborate with other students, form study groups, engage in discussions, rate different courses and stay up to date with all the latest industry knowledge.

FLASH CARDS & EDUCATIONAL GAMES

Every Students learns differently. That is why we provide Flash Cards and Education Games throughout our courses. Allowing students to train in ways that keep them engaged and focused.

NAVIGATION & CONTROLS

Self-paced training programs are designed in a modular fashion to allow the flexibility to work with expert level instruction any time 24/7.

Course Description

This course prepares the student to take the CompTIA Network+ N10-007 certification exam. It covers all exam objectives, as well as additional topics that provide background and context. Demonstrations and instructor commentary throughout the course come from real-world experience, with examples and tips that the network professional can use in a production environment. In this course, you will: - Describe networking concepts - Explain the function and installation of network infrastructure components - Describe network operations concepts and implementation - Describe network security concepts and implementation - Explain network troubleshooting techniques and tool usage

Instructor - Chrys Thorsen

Course Outline

Module 1 - Networking Concepts
Module 2 - Infrastructure
Module 3 - Network Operation
Module 4 - Network Security
Module 5 - Network Troubleshooting and Tools
