Leaders in Learning

CERTIFICATION LEVELS

You can begin your training at any belt level. It is not necessary to work your way through each belt.

WHAT IS SIX SIGMA?

Six Sigma is a set of techniques and tools for process improvement. It seeks to improve the quality of the output of a process by identifying and removing the causes of defects and minimizing variability in manufacturing and business processes. It uses a set of quality management methods, mainly empirical, statistical methods, and creates a special infrastructure of people within the organisation, who are experts in these methods.

Each Six Sigma project carried out within an organization follows a defined sequence of steps and has specific value targets, for example: reduce process cycle time, reduce pollution, reduce costs, increase customer satisfaction, and increase profits.

WHY GET SIX SIGMA CERTIFIED?

Six Sigma certification is a powerful way to advance your career and improve your skills as a leader in your organisation. Stand apart from the crowd and transform your organisation with these proven techniques and tools.

HOW WILL I GET CERTIFIED?

Hudson is an IASSC Accredited Training Organisation. Providing you pass the final exam, you will be certified as a Six Sigma Yellow, Green, or Black Belt by the IASSC.

YELLOW BELT

Yellow Belt is a good fit if you're part of a Six Sigma Team working to improve a business.

GREEN BELT

Green Belt is for those who are part of a Six Sigma Management Team working to improve a business, assisting with data collection and analysis.

BLACK BELT

Black Belt is for Project Leaders and Consultants who lead problem-solving projects and train and coach project teams.

WHY LEARN SIX SIGMA?

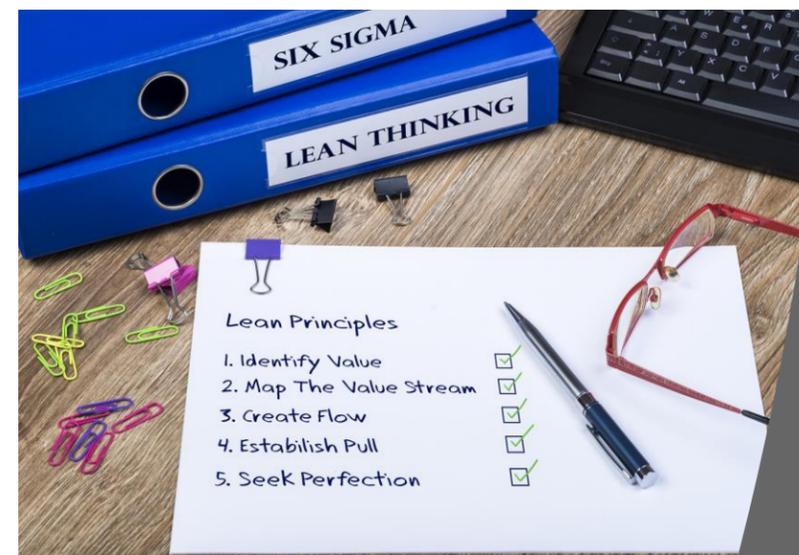

Six Sigma is a globally recognised methodology and set of best practices, applicable across all sectors. It uses proven techniques to reduce wastage, processes, and variance. These skills can be applied to a wide range of team lead and managerial roles. Six Sigma is great for anyone aspiring to lead a processing team. You'll gain valuable problem-solving and managerial coaching to empower you and your team.

WHO IS SIX SIGMA AIMED AT?

Six Sigma is ideal for anyone who currently is, or aspires to become a:

- + Lead Analyst
- + Business Analyst
- + Senior Project Manager
- + Business Process Manager
- + Supervisor or Team Leader
- + Quality Assurance Manager
- + Program or Project Manager
- + Continuous Improvement Manager
- + Manager, Senior Manager or General Manager
