Qualification regulation and support

The Highfield Level 4 Certificate in Education and Training (RQF) has been developed and is awarded by Highfield Qualifications and sits on the Regulated Qualifications Framework (RQF). The RQF is a qualification framework regulated by Ofqual and CCEA Regulation. The qualification is also regulated by Qualifications Wales.

Key facts

Qualification number:	601/1695/X
Learning aim reference:	6011695X
Credit value:	36
Assessment method:	Portfolio of evidence
Guided learning hours (GLH):	140
Total qualification time (TQT):	360

Qualification overview and objective

The Highfield Level 4 Certificate in Education and Training (RQF) has been designed to prepare trainee teachers to teach in a wide range of contexts. It requires observation and assessment of practice and the range of optional units available provide opportunities to contextualise the qualification for different learning environments.

This qualification is suitable for individuals who:

- want a qualification focused on practical teaching
- want a choice of optional units that reflects the context in which they teach
- are currently teaching and want to have their practice and experience accredited
- are not currently teaching but can meet the minimum teaching practice requirement of 30 hours
- are able to undertake a qualification of medium size
- have the potential to study at this level which equates to the first year of an undergraduate degree
- are willing to undertake an initial assessment of their skills in maths, English and ICT

The objective of the qualification is to support a role in the workplace and prepare learners to progress to a qualification in the same subject area but at a higher level. The qualification is supported by the Education and Training Foundation.

Entry requirements

In order to complete this qualification, learners are required to:

- Be a minimum of 19 years of age
-

- be qualified, proficient or experienced in the subject which they intend to teach.
- have sufficient personal skills to complete the academic and other requirements of the programme. They will also need to be able to support their learners at the appropriate level whilst delivering their subject specialism.
- demonstrate the potential to study at minimum academic level 4 – the same level of study as the first year of a degree course.
- take an initial assessment of their maths, English and ICT skills. The teaching programme will support further development of these skills, recorded in a personal development log. It is recommended that trainee teachers will have been assessed as competent at level 2 in English and maths prior to the completion of this qualification. For more information about minimum core of literacy, language, numeracy and ICT please review the ‘Updated guidance for teaching qualifications for further education and skills sector’. This is available in the members area of the Highfield website.

Geographical coverage

This qualification is suitable for delivery in England, Wales and Northern Ireland.

Guidance on delivery

The total qualification time for this qualification is 360 hours and of this 140 hours are recommended as guided learning hours.

TQT is an estimate of the total number of hours it would take an average learner to achieve and demonstrate the necessary level of attainment to be awarded with a qualification, both under direct supervision (forming guided learning hours) and without supervision (all other time). TQT and GLH values are advisory and assigned to a qualification as guidance.

The requirements to deliver this qualification differ depending on the units chosen. All centres will need to ensure they have staff in place that meet the core staff requirements – as these staff will be required to deliver, assess and IQA some of the mandatory units in the qualifications, as well as other non-learning and development units. In addition to this, where centres wish to deliver the learning and development units, they will need to ensure that they have staff in place who meet the **additional** tutor, assessor and IQA requirements. **Please see the tutor, assessor and IQA requirements outlined on pages 6 & 7 of this specification for more information.**

Although it is not a requirement, it is effective practice for every trainee teacher to be allocated a subject specialist mentor whose role is to provide specialist advice and information on the successful teaching of a specific subject. Ideally the mentor will be working in, or be familiar with, the trainee’s place of teaching practice so that the mentor can support the trainee locally. The mentor may carry out some of the assessed observations but the majority must be carried out by the tutor and assessor that delivers the course. The mentor should liaise with, and feedback to, the tutor and assessor responsible for monitoring and supporting the trainee’s professional development and progress.

Guidance on assessment

This qualification is assessed by a portfolio of evidence which must cover all assessment criteria of the units selected. The portfolio of evidence will be assessed and internally quality assured by the Centre and should include evidence of 30 hours teaching practice and 3 hours of observed practice.

Highfield have worked with subject matter experts to provide supporting assessment paperwork for Centres to use. If you wish to use alternative paperwork, this must be sent to Highfield for approval prior to commencement of the course.

Centre's who wish to use remote observation for assessment purposes should note that a balance of in-person and remote observation is recommended. Remote observation can be helpful when it is utilised as part of a professional discussion, but the sole use of remote observation techniques involving video or digital recording, does not provide sufficient scope and should be avoided. To ensure this, Highfield must be satisfied that any remote observation elements are robust prior to them taking place – therefore please contact Highfield directly if you would like to discuss this further.

Centres must take all reasonable steps to avoid any part of the assessment of a learner (including any internal quality assurance and invigilation) being undertaken by any person who has a personal interest in the result of the assessment.

Important Note: Please see specific individual unit requirements detailed in Appendix 2.

Practice Requirements

There is a requirement for a **minimum of 30 hours of practice** for this qualification. There is no requirement to evidence working with groups of learners to achieve this qualification unless units are undertaken which specify that purpose. However, where trainee teachers are working solely with individuals, a programme may also include support and preparation for working with groups.

Highfield recognises that an effective teaching practice experience should ideally include:

- different teaching practice locations/settings/contexts;
- teaching across more than one level;
- teaching a variety of learners;
- teaching individuals and groups; and
- gaining subject-specialist knowledge through workplace mentoring.

Please note: Experience of non-teaching roles is also very useful but cannot be included within the specified number of teaching practice hours.

There must be a minimum of three observations totalling a minimum of three hours. This excludes any observed practice completed as part of the *Level 3 Award in Education and Training*. Any single observation must be a minimum of half an hour. Observations should be appropriately spaced throughout the whole programme and take into account a trainee teacher's progress.

The three observations must be linked to the following mandatory units:

- Delivering education and training (Level 4)
- Assessing learners in education and training (Level 4)
- Using resources for education and training (Level 4).

Highfield recommends that a holistic approach should be taken to observed and assessed practice so that each observation and assessment of practice enables trainee teachers to provide evidence for all of the three units identified above.

Please refer to Appendix 3 for assessed observation guidance which will enable providers to make a judgement about whether a trainee teacher has met the required standard of practice in an observation.

Guidance on quality assurance

Highfield requires centres to have in place a robust mechanism for internal quality assurance of training delivery and internal assessment processes. Internal quality assurance must be completed by an appropriately qualified person and that person must not have been involved in any aspect of the delivery or assessment of the course they are quality assuring.

Recognition of prior learning (RPL)

Centres may apply to use recognition of prior learning or prior achievement to reduce the amount of time spent in preparing the learner for assessment.

For further information on how centres can apply to use RPL as described above, please refer to the Recognition of Prior Learning (RPL) policy in the members' area of the HABC website. This policy should be read in conjunction with this specification and all other relevant HABC documentation.

Mapping to National Occupational Standards (NOS)

This qualification maps to the National Occupational Standards for teachers, tutors and trainers in the lifelong learning sector (LLUK).

Reasonable adjustments and special considerations

Highfield Qualifications has measures in place for learners who require additional support. Please refer to Highfield Qualifications' Reasonable Adjustments Policy for further information/guidance.

ID requirements

It is the responsibility of the centre to have systems in place to ensure that the person taking an assessment is indeed the person they are claiming to be. All centres are therefore required to ensure that each learner's identification is checked before they undertake the assessment. Highfield Qualifications recommends the following as proof of a learner's identity:

- a valid passport (any nationality)
- a signed UK photocard driving licence
- a valid warrant card issued by HM forces or the police
- another photographic ID card, e.g. employee ID card, student ID card, travel card etc.

If a learner is unable to produce any of the forms of photographic identification listed above, a centre may accept another form of identification containing a signature, for example, a credit card. Identification by a third-party representative, such as a line manager, human resources manager or invigilator, will also be accepted.

For more information on learner ID requirements, please refer to Highfield Qualifications' Core Manual.

Appendix 3: Assessed Observation Guidance

This section provides assessors and learners with assessed observation guidance. Assessed observations of practice are a vital component of the Level 4 Certificate in Education and Training qualification. The following units will include an assessed observation:

- Assessing learners in education and training;
- Delivering education and training; and
- Using resources for education and training.

The assessed observations of practice requirements are a minimum of three observations, totalling a minimum of three hours. Any single observation must be a minimum of half an hour.

HABC recommends that a holistic approach should be taken to observed and assessed practice, so that each observation and assessment of practice enables trainee teachers to provide evidence for all of the three units identified above.

The [Initial Teacher Education inspection \(ITE\) handbook \(Ofsted, 2012\)](#) states that, for outcomes for trainee teachers to be judged as at a good level (grade 2), much of their teaching should be good, with examples of outstanding teaching. HABC therefore recommends that all trainee teachers should be required to achieve a good standard of teaching by the end of their programme.

With this in mind, at least one hour of observed and assessed practice in observations linked to the units above should demonstrate grade 2 characteristics (these characteristics are outlined within the 'grading criteria' section below). Additional guidance for those observing practice can be accessed here: [Ofsted report Teaching, Learning and Assessment: what works and why September 2014](#).

Any assessed observations of practice demonstrating the characteristics of inadequate practice (grade 4) should not be included in the total 3 hours of assessed observations of practice. However, providers should record these observations and provide detailed developmental feedback to trainee teachers.

It is important that all records of assessed observations of practice, demonstrating the characteristics of all grades (1 to 4), be retained. This will enable those observing and assessing practice to identify developmental points from previous observations, and to monitor trainee teachers' progress towards meeting developmental points and achieving a good standard of practice (grade 2) by the end of their programme.

There are additional practice requirements for some optional units within the HABC Level 4 Certificate in Education and Training (QCF). These requirements are in addition to the observed and assessed practice requirements identified above for the mandatory units and are summarised in the qualification specification above for each unit.

Grading Criteria

In judging the quality of teaching, learning and assessment, assessors should evaluate the extent to which:

- Learners benefit from high expectations, engagement, care, support and motivation from staff;
- Staff use their skills and expertise to plan and deliver teaching, learning and support to meet each learner's needs;
- Staff initially assess learners' starting points and monitor their progress, set challenging tasks, and build on and extend learning for all learners;
- Learners understand how to improve as a result of frequent, detailed and accurate feedback from staff following assessment of their learning;
- Teaching and learning develop English, mathematics and functional skills, and support the achievement of learning goals and career aims;
- Appropriate and timely information, advice and guidance support learning effectively; and
- Equality and diversity are promoted through teaching and learning.

Grading characteristics

Outstanding (grade 1)

- Much teaching, learning and assessment for all age groups and learning programmes is outstanding and rarely less than consistently good. As a result, the very large majority of learners consistently make very good and sustained progress in learning sessions that may take place in a variety of locations, such as the classroom, workplace or wider community.
- All staff are highly adept at working with and developing skills and knowledge in learners from different backgrounds. Staff have consistently high expectations of all learners and demonstrate this in a range of learning environments.
- Drawing on excellent subject knowledge and/or industry experience, teachers, trainers, assessors and coaches plan astutely and set challenging tasks based on systematic, accurate assessment of learners' prior skills, knowledge and understanding. They use well-judged and often imaginative teaching strategies that, together with sharply focused and timely support and intervention, match individual needs accurately. Consequently, the development of learners' skills and understanding is exceptional. Staff generate high levels of enthusiasm for participation in, and commitment to, learning.
- Teaching and learning develop high levels of resilience, confidence and independence in learners when they tackle challenging activities. Teachers, trainers, and assessors check learners' understanding effectively throughout learning sessions. Time is used very well and every opportunity is taken to develop crucial skills successfully, including being able to use their literacy and numeracy skills on other courses and at work.
- Appropriate and regular coursework contributes very well to learners' progress. High quality learning materials and resources including information and communication technology (ICT) are available and are used by staff and learners during and between learning and assessment sessions.
- Marking and constructive feedback from staff are frequent and of a consistent quality, leading to high levels of engagement and interest.

- The teaching of English, mathematics and functional skills is consistently good with much outstanding. Teachers and other staff enthuse and motivate most learners to participate in a wide range of learning activities.
- Equality and diversity are integrated fully into the learning experience. Staff manage learners' behaviour skilfully; they show great awareness of equality and diversity in teaching sessions.
- Advice, guidance and support motivate learners to secure the best possible opportunities for success in their learning and progression

Good (grade 2)

- Teaching, learning and assessment are predominantly good, with examples of outstanding teaching. All staff are able to develop learners' skills and knowledge regardless of their backgrounds. As a result, learners make good progress.
- Staff have high expectations of all learners. Staff in most curriculum and learning programme areas use their well-developed skills and expertise to assess learners' prior skills, knowledge and understanding accurately, to plan effectively and set challenging tasks. They use effective teaching, learning and assessment strategies that, together with appropriately targeted support and intervention, match most learners' individual needs effectively.
- Teaching generally develops learners' resilience, confidence and independence when tackling challenging activities. Staff listen perceptively to, carefully observe, and skilfully question learners during learning sessions. Teaching deepens learners' knowledge and understanding consistently and promotes the development of independent learning skills. Good use of resources, including ICT, and regular coursework contribute well to learners' progress.
- Staff assess learners' progress regularly and accurately and discuss assessments with them so that learners know how well they have done and what they need to do to improve.
- The teaching of English, mathematics and functional skills is generally good. Teachers and other staff enthuse and motivate most learners to participate in a wide range of learning activities
- Equality and diversity are promoted and learners' behaviour is managed well, although some work is still needed to integrate aspects of equality and diversity into learning fully.
- Advice, guidance and support provide good opportunities for learners to be motivated and make the necessary connection between learning and successful progression.

Requires improvement (grade 3)

- Teaching, learning and assessment require improvement and are not yet good. They result in most learners, and groups of learners, making progress that is broadly in line with that made by learners nationally with similar starting points. However, there are weaknesses in areas of delivery, such as in learning or assessment.
- There is likely to be some good teaching, learning and assessment and there are no endemic inadequacies in particular courses, across levels or age groups, or for particular groups of learners. Staff work with and develop skills and knowledge in learners from different backgrounds satisfactorily. Staff expectations enable most learners to work hard and achieve satisfactorily, and encourage them to make progress.
- Due attention is given to the careful initial assessment and ongoing assessment of learners' progress, but these are not always conducted rigorously enough, which may result in some

unnecessary repetition of work for learners, and tasks being planned and set that do not fully challenge them.

- Staff monitor learners' work during learning sessions, set appropriate tasks and are capable of adjusting their plans to support learning. These adaptations are usually successful but occasionally are not timely or relevant, and this slows learning for some learners.
- Teaching strategies ensure that learners' individual needs are usually met. Staff deploy available additional support carefully, use available resources well and set appropriate coursework for learners.
- Learners are informed about the progress they are making and how to improve further through marking and dialogue with staff that is usually timely and encouraging. This approach ensures that most learners want to work hard and improve.
- The teaching of English, mathematics and functional skills is satisfactory overall.
- The promotion of equality and support for diversity in teaching and learning are satisfactory.
- Advice, guidance and support help to motivate learners to succeed in their learning and progress.

Inadequate (grade 4)

- Teaching, learning and assessment are likely to be inadequate where any of the following apply.
- As a result of weak teaching, learning and assessment over time, learners or groups of learners are making inadequate progress and have been unsuccessful in attaining their learning goals.
- Staff do not have sufficiently high expectations and, over time, teaching fails to excite, enthuse, engage or motivate particular groups of learners, including those with learning difficulties and/or disabilities.
- Staff lack expertise and the ability to promote learning.
- Learning activities and resources are not sufficiently well matched to the needs of learners and, as a result, they make inadequate progress.
- Teaching of English, mathematics and functional skills is inadequate and a significant proportion of learners do not receive appropriate support to address English, mathematics and language needs.
- Staff show insufficient understanding and promote equality and diversity insufficiently in teaching sessions.
