

Good Clinical Laboratory Practice (GCLP)

Training
Online 4U

About this course

GCLP guidance identifies the **systems** required and **procedures** to be followed within an organisation which conducts analysis of samples from clinical trials in compliance with the requirements of Good Clinical Practice (GCP). This interactive and engaging GCLP course provides an understanding of the framework for a quality system in analysis of clinical trial samples. It will ensure that all laboratory processes and results are **GCLP compliant**.

Who is the course suited to? This is a professionally developed, interactive and engaging online course essential for sponsors, laboratory management, project managers, CRAs and quality assurance personnel.

Course Contents
