

ISO 14001:2015 Internal Auditor

Course Description

This 2-day internal auditor course will develop necessary skills to assess and report on the conformance and processes based on ISO 14001:2015. Enhance your auditing skills in line with ISO 14001:2015 and learn how to initiate an audit, prepare and conduct audit activities, compile and distribute audit reports and complete follow up activities.

Course Objectives

- Interpreting the requirements of ISO 19011:2018 auditing standard
- How to plan and prepare for an internal audit, gather audit evidence through observation, interview and sampling of documents and record
- How to prepare and report audit findings.

Target Audience

- Those responsible carrying out environmental system audits
- Internal auditors – New and Existing
- Experienced quality auditors who want to audit environmental management systems and who need to show professional competence in this subject.
- Managers who will have to evaluate the outcome of internal EMS audits
- Those who manage the risk and opportunity within Environment in their organization
- Those who already work as an auditor but need a refresher
- Those interested in understanding how to fit EMS into their business
- Those starting their career in environmental management

Course Benefits

- ✓ Identify the key requirements and benefits of ISO 14001:2015
- ✓ Prepare conduct and follow up on ISO 14001:2015 audit activities
- ✓ Write factual audit reports and suggest corrective actions
- ✓ Help your organisation to take steps to gain a culture of quality
- ✓ Produce professional audit reports and justify cases for corrective action and improvement
