The CPD Certification Service

OVERVIEW

Welcome to The Mandatory Training Group's online Basic Life Support training course for front-line healthcare and social care support workers. All our online training courses, programmes and qualifications are accredited by the CPD Certification Service (CPDUK).

It is essential to understand that the objective of BLS is not to 'treat' the person but to buy some valuable time until the emergency medical aid arrives. BLS procedure is mainly used on people experiencing cardiac arrest or respiratory failure.

Basic first aid helps ensure that the right methods of administering medical assistance are provided. Knowing how to help a person is just as crucial in emergencies. It only takes six minutes for the human brain to expire due to lack of oxygen.

Why is this online Basic Life Support training course essential?

It is essential to understand that the objective of BLS is not to ‘treat’ the person but to buy some valuable time until the emergency medical aid arrives. BLS procedure is mainly used on people experiencing cardiac arrest or respiratory failure.

Basic first aid helps ensure that the right methods of administering medical assistance are provided. Knowing how to help a person is just as crucial in emergencies. It only takes six minutes for the human brain to expire due to lack of oxygen.

One way of buying time until a defibrillator (AED) becomes available is to provide artificial breathing and circulation by performing cardiopulmonary resuscitation, or CPR. The earlier you give CPR to a person in cardiopulmonary arrest (no breathing, no heartbeat), the higher the chance of successful resuscitation.

Collective Mark

“When we set up our business, we were looking for a reliable training provider for the healthcare multi-disciplinary team (MDT). We worked with The Mandatory Training Group to establish our training needs for each group of professionals. Their experience was invaluable, helping us to design new courses and assessments to meet the commissioners' and regulatory requirements”.

Anne Joy, OSD Healthcare, Hemel Hempstead, UK

Healthcare choice for **everyone** **Statutory and Mandatory Training for Healthcare Providers**

“All our senior clinicians were delighted with the delivery of the mandatory training courses. They found the course leaders to be very flexible with allocating more time to certain areas at request. The course contents that LearnPac had designed were tailored to our workforce, which helped them improve their understanding of the subjects. The application of legislative concepts to practice was excellent”.

Sophie Hartley-Jones, OneHealth Group, Sheffield, UK

Online Training and Development for the Public Sector

“We work with various public sector organisations. Statutory and mandatory training is essential for all our placements. We used LearnPac for the blended learning environment they provide for our staff. The online statutory and mandatory training courses adequately meet our regulatory requirements. LearnPac's learning management system enabled us to manage our learners and quickly sort out compliance for our workers. The flexibility of pricing and meeting our needs with the mandatory training was beneficial.”

David Sanchez, Eden Brown Synergy, London, UK

Blended Train the Trainer Courses for Healthcare Providers

“We were looking to provide resuscitation and first aid training for clinical and non-clinical staff internally. The Mandatory Training Group stood out because they provide comprehensive blended learning solutions. Our internal trainers and facilitators were able to complete the theory training and assessments in advance. The practical sessions were packed with meaningful activities throughout the day. The lead trainers also helped us to complete training needs assessments”.

Kate McLoughlin, Nuffield Health, Bournemouth, UK
