How this qualification will be assessed?

To pass the SIA CCTV Operator Public Surveillance course you will have to sit two multiple choice question examinations.

- ✓ **Unit 1:** 72 multiple choice questions with a duration of 1 hour and 40 minutes and a pass mark of 51 questions.
- ✓ **Unit 2:** 40 multiple choice questions with a duration of 1 hour and a pass mark of 28 questions.

Where can you work?

A CCTV operator works in a central control room, monitoring and controlling a bank of screens. These are linked to surveillance cameras placed in public places, buildings, and other places such as construction sites, to detect and prevent crime, and protect people.

Most security companies are keen to recruit security operatives who have multiple qualifications, this will ensure that they can save resources both in terms of manpower and financial savings.

The CCTV Operative course will enable you to work as a CCTV Operator in most of the places.
