

Certified ScrumMaster

Learn to truly master Scrum

Our interactive Scrum Alliance Certified Scrum Master training is a great course for anybody who is new to Scrum or applying it within their organisation.

The course covers in depth the full Scrum Framework, Scrum events, accountabilities, artifacts, commitments and the values and principles that underpin it. A combination of interactive exercises, practical real-life examples, and lively discussion make this a challenging, engaging and enjoyable way to develop your understanding of Scrum. The course also covers many agile practices that support Scrum, including user stories and relative estimation.

We use brain friendly, science based, accelerated learning techniques to help you really learn and increase your knowledge retention and post course you can take advantage of a one hour coaching session that is included as part of the course.

What you'll come away with

You'll come away understanding Scrum in real depth. You won't just know how to use it, you'll understand how and why it works – and how to apply it highly effectively.
