

CSCS GREEN CARD PROCESS

Candidate completes the Online Level 1 Health and Safety in a Construction Environment course

Distributor gives the candidate the option to upgrade to the fully accredited certificate

Online invigilated exam can be completed at a time chosen by the candidate using their computer and webcam

After reading the instructions, exam rules and showing photo ID the candidate starts the exam

If a pass is achieved the candidate is issued with the accredited certificate

The candidate or distributor can then apply for the Green Card (CITB HS&E Touch screen test is also required)
