**No Pass,
No Resit
Fee!**

About the Course

This five-day Site management safety training scheme (SMSTS) course covers relevant health, safety and environmental legislation affecting safe working in the building, construction and civil engineering industries. It highlights the need for risk assessment in the workplace, the implementation of the necessary control measures, and adequate communication to sustain a health and safety culture among the workforce.

Topics Covered

- ☑ On-site safety management in accordance with the law
- ☑ On-site safety management in the context of the site management or supervisory role
- ☑ Site management responsibilities for the site health, safety, and welfare
- ☑ Recognising that a safe site is efficient, economical, and productive

Key Information:

Duration: 5 Days

Price: from £384 (incl. VAT)

Experience: no formal entry requirements, however, delegates should hold the role of a site manager

Award: CITB Certificate

Assessment: multiple choice question examination

Certificate valid for: 5 years

Who is this Qualification for?

This five-day Site management safety training scheme (SMSTS) course is designed for site managers, or aspiring site managers. It is designed for those with responsibility for managing, monitoring, implementing and reporting in a construction environment.

Course Structure

- ✔ All delegates will be required to complete four core exercises
- ✔ Trainer review on the delegates performance and engagement in the practical exercises and in the course
- ✔ An examination paper. The paper consists of 25 questions, selected by CITB, covering all aspects of the course.

Certification

Certification for this course is valid for 5 years. To remain certified in this area, you will need to retake the course before the expiry date.
