Course Review Questions

The Course Review Questions are provided online and consist of a variety of tests that cover each of the lessons in the course. The questions for each test are drawn from a larger pool of questions. The Course Review Questions consist of the following:

- **Lesson Reviews** — One review for each lesson in the course, consisting of randomly selected questions covering the lesson content. The Reviews allow you to check each answer while taking the test and repeat a test as many times as you like (you will receive a different set of questions each time).
- **Lesson Quizzes** — One quiz for each lesson in the course, consisting of randomly selected questions covering the lesson content. The Quizzes assess mastery of the lesson material. You may repeat a test as many times as you like (you will receive a different set of questions each time).
- **Course Review** — A collection of randomly selected questions covering all lessons in the course. The Course Review has no time limit and allows you to check your answer to each question as you go through the test. At the end of the test, you can view each question you answered incorrectly, along with an explanation of the correct answer and the location of the relevant material in the course.
- **Course Test** — A collection of randomly selected questions covering all lessons in the course. The Course Test is a time-limited test that simulates the experience of the certification exam. At the end of the test, you can view each question you answered incorrectly, along with an explanation of the correct answer and the location of the relevant material in the course.

Practice Exams

The Practice Exams are provided online and consist of a variety of tests designed to help assess knowledge on specific objectives and reinforce learning. The Practice Exams consist of the following:

- **Objective Reviews and Quizzes** — One Review and one Quiz for each objective, consisting of a collection of randomly selected questions. The Objective Reviews let you check each answer while taking the test.
- **Reinforcement Tests** — Tests that consist of the entire bank of questions. The Reinforcement Tests allow you to check the answer to each question as you go through the test. At the end of the test, you can view your performance on each objective.
- **Self-Assessment Tests** — Tests that consist of the entire bank of questions. The Self-Assessment Tests assess mastery of the material. At the end of the test, you can view your performance on each objective. You will also receive an e-mail message with this information to enable you to track your progress and concentrate your study on particular sections of each lesson.
- **Practice Exams** — A time-limited test that consists of random selection of questions covering all learning objectives. The Practice Exams most closely simulate the experience of the certification exam.

Online Exercises

The Online Exercises test knowledge of the topics presented in the course and help you prepare for the certification exam. The Exercises are presented in a variety of formats including flash cards, matching exercises, true-false questions, crossword puzzles and fill-in-the-blank exercises.
